ABSTRACT

This publication presents information on federal and state programs which fund library and other book-related projects. Federal programs described provide funding for: (1) library services (Title I, Library Services and Construction Act/LSCA); (2) instructional materials and school library resources (Title IV-B, Elementary and Secondary Education Act/ESEA); (3) inexpensive book distribution for reading motivation (Section 231, ESEA); (4) assistance to medical libraries (Title III-J, Public Health Service Act); (5) the National Agricultural Library; (6) college library resources (Title II-A, Higher Education Act); and (7) strengthening research library resources (Title II-C, Higher Education Act). Fact sheets for each state present names of state education and library officials, school enrollment figures, data on textbook sales, and other related information. Allocation charts for various programs and a glossary are also provided. Appendices include a list of federal information centers, a description of the Center for the Book in the Library of Congress (LC), 1979 statistics for the 60 largest academic libraries, a rank order listing of public libraries with a million or more volumes, excerpts from related federal legislation, descriptions of ERIC clearinghouses and services, a guide to Office of Education programs, and a list of officers and chapters of the Professional Booksellers of America (PBA). PREFACE

This compilation of selected federal and state book program information has been gathered for the use of members of the Association of American Publishers. For the most part, information in this book is derivative, principally from state and federal sources. It is as up to date as is possible although, obviously, some items may be rendered obsolete by recent personnel changes, etc.

The creation of the Department of Education, which is scheduled to come into being this spring after publication of this book, creates some problems. While it is anticipated that most of the individuals listed as information contacts for various Office of Education programs will remain the same, titles and telephone numbers and addresses may change. If questions arise, publishers should feel free to ask the AAP Washington office for up-to-date information. In addition, the fall, 1979 college enrollment state-by-state statistics were not available at publication date; those desiring such statistics may request them from the AAP Washington office and they will be sent as soon as obtainable.

A debt of gratitude is owed -- and acknowledgment is made -- to the following sources from which the contents of this volume were gleaned: The U.S. Office of Education and the National Center for Education Statistics, both agencies within the Education Division of the Department of Health, Education and Welfare, which provided the bulk of the data; the Council of Chief State School Officers; the Library of Congress; and AAP's 1978 Industry Statistics (copyright 1979). Special mention should also be made of Rebecca Schuman (Silver Burdett), who provided the material on adoption; her work was invaluable.

I would be remiss if I did not acknowledge also the tireless help given in the preparation of this book by Chad Howlin, Bea Raskin, and Maryse M. Stroud, who did yeoman work, especially on the lengthy section containing state information. And Tom McKee of the AAP New York office was a stalwart in helping navigate the shoals of production, distribution and administrative trivia.

And, finally, this volume would not have been possible without the support of AAP President Townsend Hoopes and the Chairmen of the AAP School and College Divisions, Gary D. Eisenberger (Charles E. Merill Publishing Co.) and David P. Amerman (Prentice-Hall, Inc.)

GLOSSARY OF TERMS

Authorization (Auth.) -- The amount of money that the enabling legislation sets as the upper limit for appropriation.

Budget -- The amount requested by the President to the Congress for appropriation for individual items. The President submits his budget to Congress in January, but may also submit supplemental requests during the year.

CFR -- Code of Federal Regulations. Updated volumes of individual titles of the Code are published annually. HEW Education Division programs are found in Title 45, Parts 100 to 199 of the Code. All regulations and items affecting regulations are first published in the Federal Register.

Continuing Resolution -- The device by which funds are appropriated for the interim period after the beginning of the fiscal year (October 1) but before the appropriation bill for that fiscal year has been enacted.

ESEA -- The Elementary and Secondary Education Act, first written into law in 1965 and subsequently extended and revised.

Fiscal Year (FY) -- The period beginning October 1 and ending September 30. Thus, FY 1980 began October 1, 1979 and ends September 30, 1980. Prior to FY 1976 the Federal fiscal year began July 1 and ended June 30.

General Education Provisions Act (GEPA) -- The statute stipulating provisions for education and library programs administered by HEW's Division of Education. It also provides statutory authority for the Division of Education of HEW and its component parts (including the Office of Education and the National Institute of Education), general requirements and conditions concerning the operation and administration of education programs, statutory authority for education advisory councils, and for continuation of expiring programs, among other things.

Such sums -- Refers to statutory authorization language of "such sums as may be necessary," i.e., there is no stated limit in the authorizing legislation on the amount that may be appropriated.

Background

Originally enacted in 1956 for rural libraries, the program was expanded in 1964 to cover urban areas as well. It was further extended and expanded in subsequent years. The Library Services and Construction Act Amendments of 1977 (P.L. 95-123) extended LSCA five years through FY 1982. The principal changes were a new provision allotting a portion of any Library Services (Title I) appropriation over $60 million to urban libraries and requiring state matching of federal funds received for administrative costs. Thus, the urban program first became effective in FY 1979.

In recent years, appropriations have ranged from a low of $25 million in each of FY 1965 and FY 1966 to a high of $62.5 million in FY 1979 and FY 1980.

Eligible Recipients

State library agencies; funds to be used for library services in areas and for persons with no or inadequate library services and for programs to provide state institutional library services, library services to the physically handicapped, library services for the disadvantaged and for strengthening metropolitan public libraries that serve as national or regional resource centers.

Purpose and Use of Funds

To assist states in the extension and improvement of public library services in areas where there are no or inadequate services, in the improvement of library services for the handicapped, institutionalized and disadvantaged, and strengthening state library administrative agencies.

Funds may be used for books and other library materials, library equipment, salaries, and other library expenses, for administration of state plans, and for strengthening the capacity of state library administrative agencies for meeting the needs of the people of the state. Funds may not be used for libraries organized to serve a specific clientele, such as law, medical, school and academic libraries, nor may Title I funds be used for construction.

Distribution of Funds

Grants to the states according to a formula based on population. State matching required, with Federal share ranging from 33 percent to 66 percent (except Pacific Trust Territories, which is 100 percent Federal) based on per capita income of state. See attached chart for state allocations and matching requirements for FY 1980.

Miscellaneous

States must submit at end of each fiscal year a report on projects and annual expenditures, including statistical summary; these reports available for inspection at the U.S. Office of Education in Washington.

Section 2(b) of the Library Services and Construction Act provides that nothing in the Act "shall be construed to interfere with State and local initiative and responsibility in the conduct of library services. The administration of libraries, the selection of personnel and library books and materials, and, insofar as consistent with the purposes of this Act, the determination of the best uses of the funds provided under this Act shall be reserved to the States and their local subdivisions."

Background

The Education Amendments of 1974, P.L. 93-380 (August 21, 1974), consolidated ESEA Title II (school library resources), the testing, guidance and counseling portion of ESEA Title III, and NDEA Title III (equipment and minor remodeling) into Part B of Title IV, ESEA. The testing, guidance and counseling portion was removed from ESEA IV-B by the Education Amendments of 1978, (PL 95-561), beginning in the 1980-81 school year.

Eligible Recipients

State education agencies, which in turn allocate to the local education agencies throughout the state. While those at nonpublic schools benefit from the program, title to the materials must remain with a public agency.

Purpose and Use of Funds

Funds may be used for (1) the acquisition of school library resources, textbooks, and other printed and published instructional materials for public and private elhi children and teachers for instructional purposes only, and (2) for the acquisition of instructional equipment (including lab and other special equipment, including audiovisual materials and equipment suitable for use in providing education in academic subjects) for public and private elhi children and teachers for instructional purposes only. Funds for state administration may not exceed 5% or specified amount. Local educational agencies will determine how funds to be divided among above-cited programs.

Distribution of Funds

Grants to states according to a formula based on number of children aged five to seventeen, inclusive (see attached chart). Funds are to supplement, not supplant, expenditures of recipients. States distribute funds according to public and private elhi enrollments with extra consideration for (1) tax effort and (2) high numbers or percentages of low-income, bilingual or other children requiring higher than average education expenditures.

*Plus $11.633 million earmarked for hold harmless for smaller states.

**President Carter received Congressional approval to transfer $18 million to ESEA IV-D (Guidance, Counseling and Testing) for obligation on July 1, 1979 until September 30, 1980

Miscellaneous

State must appoint an advisory council to advise on preparation and administration of the State plan, including criteria for the distribution of funds and approval of grant applications and evaluation of projects; and make recommendations and reports to the U.S. Commissioner of Education.

State must make available results of evaluations and other program information to the U.S. Commissioner of Education.

Background

Originally, this program was authorized by Sec. 9 of P.L. 94-194. Subsequently, the Education Amendments of 1978 (P.L. 95-561) incorporated it in Part C ("Special Program for Improving Basic Skills") of Title II of the Elementary and Secondary Education Act.

Eligible Recipients

A private nonprofit group or a public agency, which has as its primary purpose the motivation of children to learn to read. This recipient must enter into subcontracts with local private nonprofit groups or with public agencies for reading motivational programs that include the distribution of books, free or at a nominal price, to children in pre-elementary, elementary and secondary schools.

Purpose and Use of Funds

The purpose is to assist a nonprofit private agency or a public agency in motivating children to read by purchasing inexpensive books for distribution to them.

Distribution of Funds

No allocation formula. The Commissioner is authorized to enter into a contract with an eligible private nonprofit group or public agency, which then enters into subcontracts as noted above (see "Eligible Recipients"). The Federal government provides 75% of book costs on a matching basis, except for programs for children of migrant workers where the Federal share may be 100%.

Application Procedure

Contractors and subcontractors must make arrangements with book publishers or distributors to obtain books at discounts at least as favorable as discounts that are customarily given by such publisher or distributor for book purchases made under similar circumstances in the absence of Federal assistance.

Regulations and Guidelines

As this is a contract program, no regulations are necessary.

	1980	16.5	8.625	9.925
	1981	18.5	9.831	

Background

The 89th Congress, in 1965, enacted the Medical Libraries Assistance Act providing for separate categorical programs (with individual authorizations) for construction of medical libraries, training of medical librarians, medical library and related research, medical library resources, regional medical libraries, and financial support for biomedical scientific publications. However, the 93rd Congress, through Title II of the Health Services Research, Health Statistics, and Medical Libraries Act of 1974 (P.L. 93-353), repealed the construction program and consolidated the remaining programs under a single authorization. This program was most recently extended by PL 95-622.

Eligible Recipients

Individuals, institutions, or organizations as stipulated for each of the six component programs.

Purpose of Use of Funds

Under the consolidated programs, funds may be used for: (1) training health professionals in the effective use of computer technology in medical research, care and education; (2) research and demonstration in medical librarianship or computer sciences related to communication and transfer of health information; (3) projects which improve the utilization or dissemination of health library resources; (4) medical library resources; and (5) regional medical libraries.

Application Procedure

Write for application forms to the Resources Division, Extramural Programs, National Library of Medicine, 8600 Rockville Pike, Bethesda, Maryland 20014 (301/496-4221). Closing dates: November 1, March 1, and July 1 of each year.

Regulations and Guidelines

Background

Founded in 1862 and with a collection of some 1.7 million volumes, this is the second largest U.S. Government library, ranking second after the Library of Congress. In January 1978, the National Agricultural Library was made part of the Technical Information Systems of the Science and Education Administration, U.S. Department of Agriculture.

Purpose and Use of Funds

The Library's primary purpose is to acquire, preserve and disseminate reliable information in all phases of the agricultural and allied services. Information contained in agricultural literature is disseminated through on-line computer networks, printed bibliographies, personal reference services, loans and photocopies to agricultural colleges, research institutions, government agencies, agricultural associations, industry, individual scientists, farmers and the general public in every part of the world.

Acquisition Practice

Material is acquired through gifts, exchange arrangements, vendors and publishers in all parts of the world.

Contacts

Acquisitions: Leslie Kulp, National Agricultural Library, Beltsville, Maryland 20705 (301/344-3825).

General information on activities and services: Deputy Director's Office, National Agricultural Library, Beltsville, Maryland 20705 (301/344-3778).

Miscellaneous

The main library is located in Beltsville, Maryland (intersection of Routes 1 and 495), 15 miles from Washington. The D.C. Branch and the Law Library are located in the South Building, U.S. Department of Agriculture, 14th Street and Independence Avenue, S.W., Washington, D. C.

1979	84.0	0	9.975
1980	84.0	0	4.988
1981	*	4.988	

Background

This program was included in the Higher Education Act when first enacted in 1965. The 94th Congress extended it by P.L. 94-482 (October 12, 1976). The 96th Congress is extending and revising it this year.

Appropriations have ranged from a high of $25 million in each of FY 1967, 1968 and 1969 to a low of $84.988 million in FY 1980.

Eligible Recipients

Higher Education institutions; consortia of higher education institutions; and public and private nonprofit libraries whose primary function is to provide library and information services to higher education institutions on a formal, cooperative basis (i.e., most research libraries).

Purpose

To assist eligible recipients in the acquisition of "library resources" defined as books, periodicals, documents, magnetic tapes, phonograph records, audio-visual materials, and other related library materials, including necessary binding.

It is estimated that some 75 percent of funds are spent on print materials.

Distribution of Funds

Basic Grants of up to $5,000 for each eligible institution. Supplemental Grants of up to $20 per student, and Special Purpose Grants, although authorized, are not expected to be available because of insufficiency of funds.

Application Procedure

Eligible institutions must apply directly to the U.S. Office of Education (Form OE 3118). Applications are evaluated by staff of the Office of Libraries and Learning Resources. Applications are submitted once annually. Approximately four months approval/disapproval time.

Regulations and Guidelines

Title 45 CFR, Chapter 1, Part 131, Sections 131.1 - 131.33 and Appendices A and B.

*Authorization under the Higher Education Act expires at the end of FY 1980. However, it is automatically extended for one year by the General Education Provisions Act, if Congress does not otherwise act.

Miscellaneous

No advisory council appointed, although authorized by law.

Recipients must inform state higher educational agency of its II-A activities.

No grants may be made for materials to be used for sectarian instruction, religious worship or primarily in connection with any part of a divinty school program.

Grants may not be made for libraries receiving assistance under the Medical Library Assistance Act.

Background

The present program was included in the Education Amendments of 1976 (P.L. 94-482) as an amendement to Part C of Title II of the Higher Education Act.

Eligible Recipients

Major public or private nonprofit research libraries are eligible if their collections are available to qualified users, make a significant contribution to higher education and research, are broadly based, are recognized as having national or international significance for scholarly research, are of a unique nature containing material not widely available, and are in substantial demand by researchers and scholars not connected with the applicant institution.

Purpose and Use of Funds

The purpose is to provide research and education of higher quality by providing financial assistance to help major research libraries maintain and strengthen their collections and make them available to all qualified users and to other libraries.

Grant funds may be used for, but not limited to, books and other materials, maintenance of material, indexing and abstracting, distribution of materials, equipment and supplies, additional staff, and communications.

Distribution of Funds

Funds must be distributed equitably throughout the United States.

Application Procedure

Applications are to be submitted to U.S. Office of Education, Application Control Center, Attention: 13.576, Room 5673, ROB 3, 7th and D Streets, S.W., Washington, D.C. 20202. Approval/disapproval time is from 60 to 120 days.

Regulations and Guidelines

APPENDIX I-B

THE CENTER FOR THE BOOK IN THE LIBRARY OF CONGRESS
A Prospectus

The Center for the Book in the Library of Congress was established by an Act of Congress, Public Law 95-129, signed by President Carter on October 13, 1977. Through this law the Congress reaffirmed its belief in "the importance of the printed word and the book" and recognized the need for the continued study and development of the written record as "central to our understanding of ourselves and our world."

The purpose of the Center for the Book, as described by Librarian of Congress Daniel J. Boorstin, is "to organize, focus, and dramatize our nation's interest and attention on the book, to marshal the nation's support--spiritual, physical, and fiscal--for the book." To accomplish this purpose, the Center will develop a variety of seminar, research, publication, exhibit, and film programs. It will organize and sponsor an annual Festival of the Book. The Center will work closely with many organizations, coordinating programs and supporting other efforts to stimulate interest and encourage research about the book. The goal of the Center for the Book in the Library of Congress is to bring together--in spirit and in action--authors, publishers, booksellers, librarians, educators, scholars, critics, and, above all, *readers* who are concerned about the role of the book in our society.

The Center is identifying specific areas where it can be a useful catalyst. Its interests cover a broad range of subjects related to the book, including the book in society, authorship and writing, the book as a physical object, publishing and bookselling, libraries and book use, reading, and international book programs. To learn what is being done now and what needs to be done, during 1978 and 1979 the Center will sponsor a series of invitational seminars on Television, The Book, and the Classroom; The Condition of Authorship; Publishers, Librarians, and the Preservation of the Book; Cable Television and the Future of the Book; Translation and the Scholar; The State of Children's Books--Today and Tomorrow; The Lifetime Reading Habit; and The U.S. Book Abroad. Cooperative sponsorship for these seminars and for the Festival of the Book is being sought with outside organizations.

The seminars, which will bring together many diverse interests, are being designed to assist the Center in making its long-range plans. The future of the book and the impact of technology on the role of the book will be a common theme. Participants will bring each other up-to-date about current developments, define issues that must be faced, and identify topics in need of research and further study.

With the Library of Congress Publishing Office, the Center will develop a varied and flexible publishing program which will include selected seminar proceedings, results of research efforts, and other publications related to its activities. In the more distant future, the program will include major exhibit catalogs and other scholarly, substantive contributions to the history of the book, including bibliographic compilations and perhaps a Library of Congress annual of the book, featuring review articles about the year's developments, and an encyclopedia of the book. Traveling exhibits, films, filmstrips, recordings, and other presentations about aspects of the book also will be developed, whenever possible in cooperation with other organizations.

The Library of Congress, long committed to preserving and enriching the tradition of the book, is the natural place for the Center. Because of the diversity of its activities, the Library is in a unique position to enlist the cooperation of a wide range of organizations, including many which rarely consider themselves part of the book community, such as the broadcasting industry, educational groups, government agencies, unions, business and church groups, university and alumni associations, and fraternal organizations. The Library's collections and the skills of its specialists will greatly enrich the Center's endeavors. The Center will work closely with many of the Library's organizational units, but in particular with the Rare Book and Special Collections Division, the Copyright Office, the Children's Book Section, the Preservation Office, the Publishing and Exhibits Offices, and the Division for the Blind and Physically Handicapped. In cooperation with these and other Library of Congress offices, the Center will be host to a variety of programs and guest speakers. These informal programs, held at the Library, will be planned to coincide with visits by specialists outside

the Library, current exhibits, or the publication of Library of Congress (or other) books of special interest.

Organizations and individuals interested in the Center for the Book at the Library of Congress may be placed on its mailing list by writing John Y. Cole, Executive Director, The Center for the Book, Library of Congress, Washington, D.C. 20540.

[Editor's Note: The following remarks were made by The Librarian of Congress, Daniel J. Boorstin, at a planning meeting for the Center for the Book held at the Library of Congress on October 20, 1977.]

You may wonder why the Library of Congress which, of all places on earth, *is* a center for the book should now become a place for the establishing of *The* Center for the Book. It is to organize, focus, and dramatize our nation's interest and attention on the book, to marshal the nation's support—spiritual, physical, and fiscal—for the book.

The times call for it. Why? Because this is a multimedia, electronic, media-ridden, annual-model age.

The place is here. This institution has a greater vested interest in the book than any other place on earth. For us, the book is not only a vested interest but a vested idea. Because we at the Library of Congress collect knowledge and entertainment resources in all media—in film and on tape, on phonograph records and on motion pictures, in manuscript, from radio and television, on maps—as well as in books, and we have the world's great collections in these media; because we are the greatest copyright deposit in all formats; because we collect in all languages (468 at the last count!), because we have been doing this for 177 years, and will go on for more centuries.

Because of all this, we know better than anyone else the dangers of the book being stifled, drowned, suffocated, buried, obscured, mislaid, misunderstood, ununderstood, unread—both from neglect and from the rising level of the increasing flood. Because we do serve the Congress, whose interests know no bounds, because we serve all libraries, scholars of all sorts and conditions, teachers, readers, quasi-readers, semi-readers, and even, we suspect, non-readers.

As the national library of a great free republic, we have a special duty and a special interest to see that books *do not* go unread, that they *are* read by people of all ages and conditions, that books are not buried in their own excess, under their own dross, not lost from neglect nor obscured from us by specious alternatives and synthetic substitutes. As the national library of the most technologically advanced nation on earth, we have a special duty, too, to see that the book is the useful, illuminating servant of all other technologies, and that all other technologies become the effective, illuminating acolytes of the book.

The Library of Congress is our mission headquarters, but we hope and expect to train and encourage missionaries all over our nation. Unlike some other missions, this mission is explosively ecumenical. No other mission can be more ecumenical. For the book is the most conservative and the most liberal, the most traditional and the most revolutionary of media, the most atheistical and the most reverential, the most retrospective, and the most futuristic. It is our duty to keep that mission energetically alive. The book is the reservoir of all the ideas that we have forgotten, and will be the reservoir for ideas still unborn.

Today we are here, encouraged by our Congress and our President, hosted by the greatest library on earth, to find ways to fill the special needs of our time and our nation, to seize the opportunities I have suggested, to find new opportunities, and to keep ourselves ready for still newer opportunities. Here we shape plans for a grand national effort to make all our people eager, avid, understanding, critical readers. To make this age, this nation, and this place the staging ground for a Renaissance of the Book.

APPENDIX I-E

Excerpt from the General Education Provisions Act

Prohibition Against Federal Control of Education

Sec. 432. No provision of any applicable program shall be construed to authorize any department, agency, officer, or employee of the United States to exercise any direction, supervision, or control over the curriculum, program of instruction administration, or personnel of any educational institution, school, or school system, or over the selection of library resources, textbooks, or other printed or published instructional materials by any educational institution or school system, or to require the assignment or transportation of students or teachers in order to overcome racial imbalance. [Emphasis added]

(20 U.S.C. 1232a), as amended by PL 94-482 (October 12, 1976)

Note: "Any applicable program" here refers to programs under the jurisdiction of HEW's Education Division. This will also apply to Department of Education programs when that department is activated.

Excerpt from the Department of Education Organization Act (PL 96-88)

Federal-State Relationships

Sec. 103. (b) No provision of a program administered by the Secretary or by any other officer of the Department shall be construed to authorize the Secretary or any such officer to exercise any direction, supervision, or control over the curriculum, program of instruction, administration, or personnel of any educational institution, school, or school system, over any accrediting agency or association, or over the selection or content of library resources, textbooks, or other instructional materials by any educational institution or school system, except to the extent authorized by law.

Vocabulary for searching

Thesaurus of ERIC Descriptors

The *Thesaurus* is a controlled vocabulary of educational terms called descriptors that are used to index and enter documents into the ERIC system and to assist users in searching the sytem.

Continuing announcement publications for comprehensive current-awareness

Resources in Education (RIE)

A monthly abstract journal announcing recently completed research reports, descriptions of outstanding programs, and other documents of educational significance indexed by subject, author, and institutional source. Cumulative semiannual indexes are available.

Current Index to Journals in Education (CIJE)

A monthly guide to the periodical literature, with coverage of more than 700 major educational and education-related publications. It includes a main entry section with annotations, and is indexed by subject, author, and journal title. Annual cumulative indexes are available.

Directories for information on ERIC collections and services

Directory of ERIC Microfiche Collections

A listing of every organization with a sizeable ERIC microfiche collection. This is organized alphabetically by state and by cities within each state for the convenience of the user.

Survey of ERIC Data Base Search Services

This document lists and describes briefly the organizations which are currently providing computerized searches of the ERIC data base. It is organized alphabetically, entries are grouped by state, and within state by city.

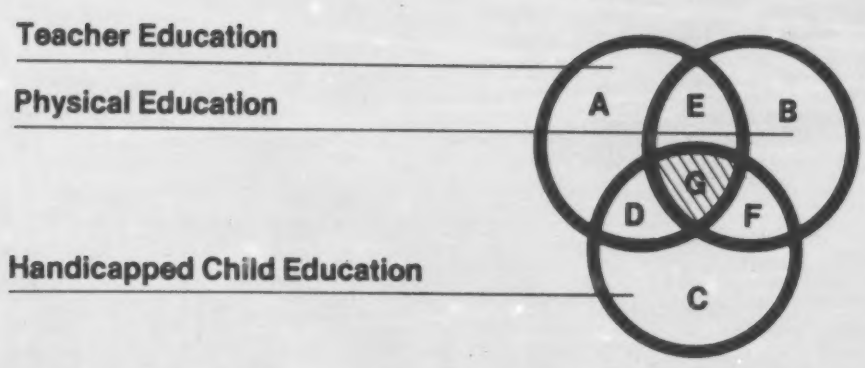
A computer search

Using a computer to search through the ERIC data base is an efficient method of retrieving information. A search may be conducted through an ERIC clearinghouse or one of the organizations listed in the ERIC publication *Survey of ERIC Data Base Search Services.*

The subject of a search will be translated by a search analyst into terms from the *ERIC Thesaurus* and a strategy will be formed for information retrieval. For example, in a computer search on the subject of preparing teachers for the physical education of handicapped children, we can picture three "sets" of documents—one dealing with teacher education, one with physical education, and one with handicapped child education. The user is interested in documents which discuss all three of these "sets," as illustrated by the shaded portion in the Venn diagram below:



Example:

Teacher Education
Physical Education
Handicapped Child Education

The search analyst will first choose those descriptors which index physical education and teacher education, and by "crossing" them, will select out of the ERIC files material dealing with both of those concepts. By limiting the resulting group with handicapped child education descriptors, a smaller set of documents will be retrieved which deals with only those three groups. The result of the search will be a list of citations printed out in the form in which they appear in RIE or CIJE.

How to obtain documents from ERIC

To enable readers to obtain the full text of documents cited in the reports section of the monthly issues of *Resources in Education*, ERIC has established the ERIC Document Reproduction Service (EDRS). EDRS supplies copies of these ERIC Reports in two forms:

microfiche (MF)

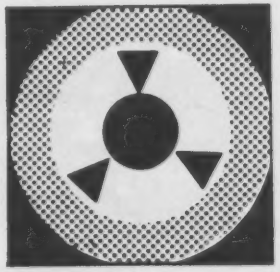
4" x 6" sheet of microfilm on which up to 96 pages of text are reproduced.

hard copy (HC)

reproduction of the document on paper at the original size.

The correct cost of each document cited in *Resources in Education*, both in hard copy and microfiche, appears on the back pages of the most recent issue. Document orders should include the complete accession number (i.e., ED number) type of reproduction (HC or MF), and the number of copies. An order form will be found in the back pages of every issue of RIE. Order from:

ERIC Document Reproduction Service
P.O. Box 190 Arlington
Virginia 22210



Reprints of articles from a majority of the journals regularly covered in *Current Index to Journals in Education* (CIJE) are now available through a reprint service from University Microfilms International. Ordering information appears on page VII of the monthly issues of CIJE.

You and ERIC

You will most often be a user of ERIC; however, you may also be a contributor. If you have prepared a report, speech, or paper which you would like to have considered for national dissemination through ERIC, send two clear, legible copies to:

ERIC Processing and Reference Facility
ORI, Inc.
Information Systems Division
4833 Rugby Avenue, Suite 303
Bethesda, Maryland 20014

Your contribution will be forwarded to the proper Clearinghouse, screened, and if found appropriate, will be entered into the system.

If the material is copyrighted, please include your address so a reproduction release form may be sent to you.
